Annex to the Country Assistance Policy

Rolling Plan for the Kingdom of Swaziland

As of April, 2018

Basic Policy of Assistance	Assistance toward Development for Poverty Eradication

Priority Area	Improvement of Human Resource Development and Basic Human Needs for the Social Vulnerable Group
Development Issue Impovement of Human Resource Development and Basic Human Needs	[Background and current situation] The government of the Kingdom of Swaziland makes effort to reduce poverty based on the national development plan "Poverty Reduction Strategy and Action Plan (PRSAP)" published in 2006. In PRSAP, the primary development priorities are to improve the quality of life for the poor and increase the income and correct inequality. Urgent challenge of education sector is to improve the quality of and accesses to secondary education because of an increase in the number of people going to secondary education due to implementing free education in the public primary education from 2010. [Strategy] In education sector, Japan supports improvement in the quality of and the accesses to secondary education focusing on science and math courses contributing to development of country. In other sectors, Japan supports reducing disparities of social services through approaching the basic health sector, agricultural sector and climate change sector which exert baleful influences on the livelihood of social vulnerable group.
