

Mbokojweni Primary School: Consumer Science Laboratoy (E 745,712.11)

- The government of Japan values education as the key to sustainable development. For this reason, it is committed to ensuring inclusive and equitable quality education to promote lifelong learning opportunities for all.
- In pursuit of this goal, the embassy donates, classrooms, libraries, mobile libraries, laboratories, workshop centres, ablution facilities, greenhouses, aquaponic systems, and many more facilities that promote quality education

Mbokojweni Primary School: Consumer Science Laboratory (E 745,712.11)

- Mbokojweni Primary School's Consumer Science laboratory is an example of the many school facilities donated by the Government of Japan through the embassy.
- The Embassy worked closely with the Kingdom of Eswatini's Ministry of Education to provide the facility.
- Mbokojweni Primary school was one of three schools funded in Eswatini in 2018.
