

The 22th International SPACC Symposium was held in Windhoek in August 13-17, 2015.

The Society of Pure and Applied Coordination Chemistry (SPACC) symposium began in Tokyo just 21 years ago and has been held annually and consecutively in the world. The 22th SPACC symposium was hosted by the Faculty of Science at the University of Namibia, for the first time in African continent. Prof. Sato, the President of Kogakuin University and other Japanese researchers visited Namibia. Prof. Hangula, the vice Chancellor of UNAM and other researchers from Namibia, South Africa and Mauritius joined the symposium. At the opening of session, Ambassador Sakamoto welcomed the symposium in Namibia.
